

In the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently amended) ~~A test kit for detecting the presence of one or more drugs in a beverage comprising a support having a plurality of detector strips attached thereto~~A kit for detecting the presence of one or more drugs in a beverage comprising a support having a plurality of drug detector strips attached thereto.
2. (Currently amended) ~~A test kit according to Claim 1 wherein the plurality of detector strips are releasably attached to the support~~The kit of claim 1 wherein the kit comprises detector strips for detecting at least two different drugs.
3. (Currently amended) ~~A test kit according to Claim 1 or 2 wherein the kit contains detector strips for detecting the presence of at least two or at least three different drugs~~The kit of claim 2 where the kit comprises at least one strip for detecting benzodiazepines and at least one detector strip for detecting gamma hydroxy butyrate.
4. (Currently amended) ~~A test kit according to Claim 3 where the kit includes at least one strip for detecting the presence of benzodiazepines and at least one detector strip for testing for gamma hydroxy butyrate~~The kit of claim 2 wherein the kit comprises at least one strip for detecting one or more of drugs selected from the group consisting of ketamines, 3,4-methylenedioxy-N-methylamphetamine, cocaine, barbiturates, opiates, tricyclic antidepressants, acetaminophen, propoxyphene, and phencyclidine.
5. (Currently amended) ~~A test kit according to any one of Claims 3 or 4 wherein the kit includes at least one strip for detecting one or more of ketamines, 3,4-methylenedioxy-N-methylamphetamine, cocaine, barbiturates, opiates, tricyclic antidepressants, acetaminophen, propoxyphene and phencyclidine~~The kit of claim 2 wherein the kit comprises at least one strip for detecting alcohol.

6. (Currently amended) ~~A test kit according to any one of Claims 3 to 5 additionally including at least one strip for detecting the presence of alcohol~~The kit of claim 1 wherein each detector strip can detect one drug or drug type.

7. (Currently amended) ~~A test kit according to any one of Claims 1 to 6 wherein each detector strip is configured to detect for more than one drug~~The kit of claim 1 wherein each detector strip can detect at least two drugs or drug type.

8. (Currently amended) ~~A test kit according to any one of Claims 1 to 6 wherein each detector strip will is configured to test for one drug or one drug type only~~The kit of claim 1 wherein the kit comprises at least two of each type of detector strips.

9. (Currently amended) ~~A test kit according to any one of Claims 1 to 8 wherein the kit includes at least two of each type of drug detector strips~~The kit of claim 1 wherein the detector strip comprises reagents for immunoassay, chemical spot assay, enzyme assay, or a combination thereof.

10. (Currently amended) ~~A test kit according to any one of Claims 1 to 9 wherein the detection means include assays or reagents which enable the target drug to be detected~~The kit of claim 9 wherein the detector strip uses colour change chemistry.

11. (Currently amended) ~~A test kit according to Claim 10 wherein the detection means include immunoassay, chemical spot, enzyme techniques~~The kit of claim 9 wherein the detector strip comprises a bed supporting the reagents.

12. (Currently amended) ~~A test kit according to Claim 11 wherein the detector strip uses colour change chemistry~~The kit of claim 1 wherein the detector strips are releasably attached to the support.

13. (Currently amended) ~~A test kit according to any one of Claims 1 to 12 wherein the detector strip is supplied as the detection means~~The kit of claim 12 wherein the support is formed from cardboard or plastics material.

14. (Currently amended) ~~A test kit according to any one of Claims 1 to 12 wherein the detector strip comprises a bed supporting the detection means~~The kit of claim 1 wherein the detector strips are formed integrally with the support and are connected thereto by a frangible flange.

15. (Currently amended) ~~A test kit according to any one of Claims 1 to 14 wherein the support to which the detection strips are releasably attached is formed from cardboard or plastics material~~The kit of claim 14 wherein the support is formed from cardboard or plastics material.

16. (Currently amended) ~~A test kit according to any one of Claims 1 to 15 wherein the or each detection is formed integrally with the support and is connected thereto by a frangible flange~~The kit of claim 1 wherein the detection strips are attached to the support by means of an adhesive.

17. (Currently amended) ~~A test kit according to any one of Claims 1 to 16 wherein the or each detection strips is attached to the support by means of an adhesive~~The kit of claim 1 further comprising a cover for the support.

18. (Currently amended) ~~A test kit according to any one of Claims 1 to 17 wherein the kit includes a cover for the support~~The kit of claim 17 wherein the cover is integral with the support.

19. (Currently amended) ~~A test kit according to Claim 18 wherein the cover is a wallet or box into which the support is placed~~The kit of claim 18 wherein the support is sized such that when it is folded into two parts, a first part is laid over the strips which are attached to the second part.

20. (Currently amended) ~~A test kit according to Claim 18 wherein the cover is integral with the support~~The kit of claim 19 wherein a third part is present which at least partially folds over the first part when it is in a closed position to help hold the first part in position.

21. (Currently amended) ~~A test kit according to Claim 19 wherein the support is sized such that when it is folded into two parts a first part is laid over the strips which are attached to the second part~~The kit of claim 17 wherein the cover is a wallet or box into which the support is placed.

22. (Currently amended) ~~A test kit according to Claim 19 wherein a third part is present which at least partially folds over the first part when it is in a closed position to help hold the first part in position~~The kit according to claim 1 wherein the kit is configured to resemble a match book.

23. (Currently amended) ~~A test kit according to any one of Claims 1 to 22 wherein the kit is configured to resemble a match book~~The kit of claim 1 wherein the support is made from non-plastics material and is coated on at least one surface with a water-resistant coating to provide protection.

24. ~~A test kit according to any one of Claims 1 to 23 wherein the support is made from non-plastics material and is coated on one or both surfaces with a water-resistant coating to provide protection~~The kit of claim 1 wherein the support is printed with instructions for use.

25. (Currently amended) ~~A test kit according to any one of Claims 1 to 24 wherein the support is printed with instructions for use and/or advice guidance relating to drugs~~A kit for detecting the presence of one or more drugs in a beverage comprising:
a support and;

a plurality of drug detector strips for detecting at least two drugs or drug types selected from the group consisting of benzodiazepines, gamma hydroxy butyrate, ketamines, 3,4-methylenedioxy-N-methylamphetamine, cocaine, barbiturates, opiates, tricyclic antidepressants, acetaminophen, propoxyphene, phencyclidine, and alcohol;
wherein the detector strips are attached to the support; the detector strips comprise reagents for immunoassay, chemical spot assay, enzyme assay, or a combination thereof; and the detector strip uses color change chemistry to indicate the presence of a drug.
